

Sensity is looking for a

UX/UI Designer (f/m)

> Cologne

Our team diversity is our strength.

Our team here at Sensity consists of 15 researchers, strategists, designers and copywriters. With offices in Luxembourg and Cologne, we combine our experience from various areas of expertise.

In a practical distribution of expertise, our company is divided into three departments across the branches in Luxembourg and Cologne: [Insights, Design and Implementation](#). This makes it easier to bundle the knowledge that is our starting point for successful strategies and ideas.

Our international clients include Deutsche Telekom AG, Mudam Luxembourg, the Ministry of Sustainable Development and Infrastructure Luxembourg and SEB Skandinaviska Enskilda Banken S.A. Luxembourg.

»Sensity« is an owner-managed company which offers all employees a valuable set of advantages: As well as further education, flexible working hours, and an above-average number of vacation days, we also offer an open and international working environment. In return, we expect a quality-driven attitude and a high level of service orientation.

We are looking for a UX/UI Designer for our Design Department in Cologne.

The purpose of your role is to conduct usability and user experience research to inform product design and user journeys. You create [concepts](#) and [prototypes](#) for [user interfaces](#) for screen and no-screen applications. Furthermore, you develop strong visual design solutions and ensure [design quality](#) across media.

Your work day is defined by close collaboration with a multidisciplinary team consisting of Researchers, Concepters, Designers, Software Developers and Product Managers. You can either support us in a full-time position in our Cologne office, or on a freelance basis with up to 30 hours per week.

Your Profile.

You have been working in the field of user experience design and user interface design for at least five years and your work is based on a strong [empathy for user needs](#). You feel comfortable playing a leading design role in conceptual and visual design projects. Experience in agile product development is not required but would be advantageous.

When faced with a complex issue, you persevere and enjoy thinking outside the box. Your reliable and team-oriented way of working convinces us and our clients alike. As we work for international clients, you should [feel comfortable speaking German and English](#) in a business context.

Does this sound like you?

Please send your application including work samples and your earliest starting date to Marcel Befort.

E-mail: marcel.befort@sensity.lu

We look forward to hearing from you!
