

DESIGN LEAD (M/F/D)

Your tasks in the Design Team

- Project management across all dimensions and disciplines
- Further development of the team and professional responsibility for the designers
- Resource planning of internal and external employees
- You ensure quality in everything you do and everything your team delivers
- Development of compelling user-centric concepts
- Translation of ideas into visual concepts, prototypes and screen designs
- Responsibility for design quality within our clients' design systems

You will be part of our team in Cologne or Luxembourg and work closely together with researchers, designers, product owners and developers – both at Sensity and on the client side.

Who we are

We are an owner-managed company with offices in Luxembourg and Cologne. Sensity develops solutions for complex issues in the areas of research, brand, design, UX and innovation. Our multidisciplinary team works on international design and consulting projects in a wide range of industries. Our clients from the private and public sectors include Deutsche Telekom, Viessmann, ABB, Busch-Jaeger, Bundesanzeiger Verlag, the Luxembourg Parliament and different Luxembourg ministries.

What you can look forward to

In our team, you can take on responsibility right away – for projects and as a contact person for our clients. We offer you the chance to constantly expand your expertise and develop yourself through training and workshops. All this in a familiar atmosphere, with committed colleagues and diverse projects. You can also look forward to 30 days of vacation, a modern, ergonomic workplace and fruit and drinks in the office.

What you bring to the table

- You can accurately explain, discuss and justify design decisions
- You provide effective feedback and direction to other team members
- You have excellent leadership and problem-solving skills and good judgment
- You have more than 7 years of experience in the field of design (UX/UI design, communication design, corporate design, editorial design)
- Qualification or professional experience in strategic design and/or project management is an advantage
- A good understanding of design systems and principles as well as brand design
- Written and spoken English and German in international projects are no problem for you
- Knowledge of digital processes, experience in the development of digital products and with the associated working methods are required

Sounds appealing?

Then we look forward to getting to know you and working with you on exciting projects. Please send us your detailed CV with possible starting date to: florian.bucher@sensity.lu. With the ID code "DES-DL-05-22", your application will go straight to the right place.
